PERSONAL STATEMENT

I solve design problem with fun

Hi, I am a 27-year-old web designer with strong passion for UX and science. I am a quick learner and I am brave to take on any challenge, therefore I had experience in App UI design, web design, magazine editing, and marketing as well.

I like to describe myself as water, which stands for flexibility and adaptability, so my personal identity mark is a water drop. More importantly, I am a very easy-going designer to work with, I laugh all the time!
